The University of the Arts has a long tradition of providing high-quality professional development that is current, practical and relevant for teachers throughout the region. The skills you learn in our classes today can be implemented in your classroom tomorrow.

During ArtsWeek, teachers will work with practicing artists to explore art-specific techniques, concepts and history in order to enhance how their students learn. Each course provides a rich, engaging studio experience within a specific artistic discipline, designed for teachers across subject areas who are interested in creative, innovative approaches to education. ArtsWeek provides the opportunity for teachers to become part of a vibrant learning community and to share creative new ideas.

Each ArtsWeek includes lesson planning to reflect new skills and approaches, networking with teachers from across the region, and concludes with an exhibition and reception.

GoggleWorks Center for the Arts

The University of the Arts

GoggleWorks Center for the Arts is a premier community art and cultural hub for Berks County as well as central and southeastern Pennsylvania. The largest, most comprehensive, interactive arts center of its kind in the country, GoggleWorks is a prime example of adaptive reuse in architecture. A former factory, GoggleWorks’ industrial complex is composed of six buildings transformed into four galleries, dance and music studios, classrooms, a wood shop, a photography classroom with darkroom, a glassblowing facility, ceramic studios, and jewelry studies.
